

## **Dhanalakshmi Srinivasan College of Nursing, Perambalur 12th Graduation Day**

Dhanalakshmi Srinivasan College of Nursing, Perambalur 12th Graduation Day Ceremony was held on July 21, 2023, at the college auditorium. 210 students, including six who secured the highest marks and placed in the university merit list, were awarded degrees in this ceremony. Dhanalakshmi Srinivasan University Hon'ble Chancellor, Shri . A. Srinivasan, presided over the function and delivered the keynote address. Speaking then, he said that he was very happy and proud to participate in this graduation ceremony and deliver the keynote address. He said that he conveys his heartfelt congratulations and appreciation to the graduating students. God gives opportunities to everyone, and those who use them properly succeed in life. Therefore, he said, he should look for opportunities and use them properly. And he said nurses are better than doctors. A mother cares for only one child at a time. But nurses like you care for hundreds of children in hospitals every day. He said that you, as nurses, should take a pledge to treat patients with excellence and humaneness to create a healthy society.

Mrs. Kannagi, Joint Director, Perambalur Government District Head Hospital, and Mr. Anbarasan, National Health Mission Coordinator, Perambalur District, attended the ceremony as special guests and presented the degrees to the students. Mrs. Kannagi, speaking on the occasion, said, "Thank you first to the Chancellor and to the parents and teachers who supported them to get their degrees in this world-class structured college. He said that they should not stop their studies but also study for their higher studies. And the experience gained in the workplace can save every human life more than the experience gained in college. Doctors only diagnose the patient's disease and prescribe treatment methods. But you understand their condition and treat them, and your role is immense in making them fully recover from that disease" Said.

Another special guest who spoke on the occasion was Perambalur District National Health Work Coordinator Mr. Anbarasan, who said, "All graduate students should approach patients with dedication and sacrifice. Your role as a nurse is crucial to ensuring that every patient leaves the hospital in good health. And I request that all the students who graduate from this college prepare themselves to serve society as good servants.

Mrs. Shantha Govind, Principal of Dhanalakshmi Srinivasan Agriculture College, delivered the felicitation address on this occasion. Earlier, the Principal of Perambalur Dhanalakshmi Srinivasan College of Nursing, Mrs. Dhanalakshmi, delivered the valedictory address and Graduation Report.
